

## PETAWELL IS FAB, OIL HAVE YOU KNOW

We are in love with this...once only available in spas and expensive beauticians, this beautifully designed **Petalwell** essential oil diffuser is now accessible in House of Fraser's flagship store at Dundrum Town Centre. The pretty, pocket-sized accessory is a lovely little luxury that brings the healing benefits of aromatherapy to your handbag.

Despite its size, the **Petalwell** can fill a room with natural scent, gently unlocking the power of essential oils to

boost your mood and enhance wellbeing. There's no mess and no fuss. It's perfectly portable, fully rechargeable and simple to use.

Okay, okay, so it is a bit pricier (€59) than your run-of-the-mill Glade Plug-In but it comes with a range of six specially developed oil blends. See [www.petalwell.com](http://www.petalwell.com) for further information or pop along to HoF to see (and smell) for yourself.
